

Create a new Tonido Account

To create a new Tonido account on your device because you want to use a different name, first Login to your existing account,

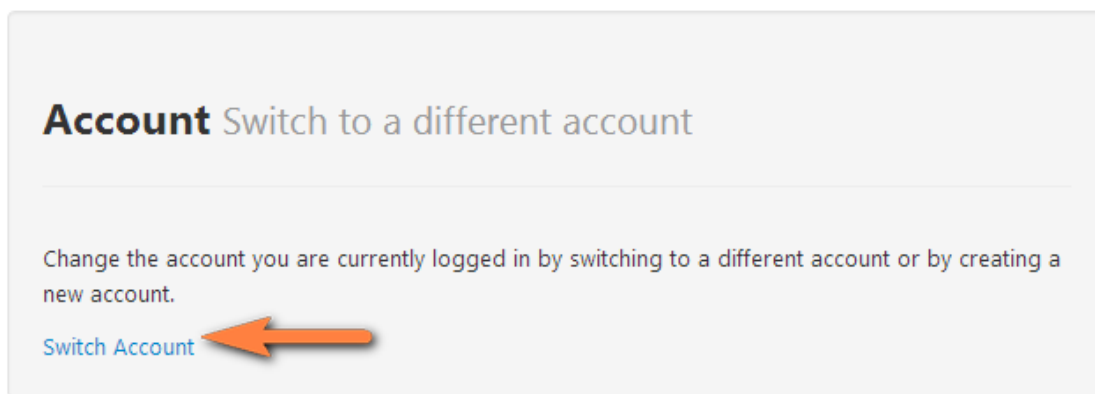

1) Settings->Network->Web Settings

Enable the "Allow Remote Admin, New Account Creation and Remote Deletion" checkbox.

The screenshot shows the Tonido web interface. At the top, there is a navigation bar with tabs for General, Account, Network, Misc, Log, and About. The 'Network' tab is selected. Below the navigation bar, there are three main sections: Relay Settings, Web Settings, and Network Settings. The 'Web Settings' section is titled 'Configure Server' and contains several checkboxes: 'Enable Remote Web Access' (checked), 'Allow Remote Admin, New Account Creation and Remote Deletion' (checked), and 'Enable SSL without using Relay (Biz only)' (unchecked). An orange arrow points to the 'Allow Remote Admin, New Account Creation and Remote Deletion' checkbox. Below the checkboxes, there is a text input field for 'HTTP Port' with the value '10001'. On the left side of the interface, there is a sidebar with various navigation options like Files, Music, Photos, Videos, Shared Files, Recent, Favorites, Player, and Apps. At the bottom of the sidebar, there is a 'Settings' button and a 'filecloud' logo.

2) Settings->Account->Switch to a Different Account.

The screenshot shows the 'Account' settings page, titled 'Switch to a different account'. Below the title, there is a paragraph of text: 'Change the account you are currently logged in by switching to a different account or by creating a new account.' Below this text, there is a blue link labeled 'Switch Account'. An orange arrow points to the 'Switch Account' link.

3) After logging out, you can create a new account
